

VIEWING BOOTHS "COLOR VIEWING LIGHT" – ABSTRACT

The viewing booths of the Color Viewing Light series are produced for the visual color control of three-dimensional color matching products – and with a sam-

ple holder as well as for flat products. All viewing booths comply with international standards like ISO 3668, ASTM D1729 and DIN 6173-2.

Mixed-light
Several light sources can be triggered at the same time, e.g. for UV-light

Dimming
Continuous dimming of the illuminants (apart from A)

Operation hours meter
The Display and illuminated keys draw attention to an upcoming lamp change

Reporting
Generate easily a report on the matching process

LAN connection
Connection to your in-house network

Remote App
Mobile Operation of the booth via cell phone or laptop

¹⁾ Additional software is needed for reproduction of further illuminants

²⁾ Based on LEDs and fluorescent lamps

³⁾ Operating hours counter
